

## Dosbarth Afal - Year 1 & 2 Homework

22nd April 2026

This week in class, as part of our topic **Living Things and Their Habitats**, the children have been learning about different habitats from around the world.

For homework, please choose one of the habitats below and find out some simple facts about the plants and animals that live there:

- Polar habitats
- The ocean
- Deserts
- Tropical rainforests
- Grasslands

As part of an oracy assessment, the children will pretend to be a **TV wildlife presenter** and share their learning with the class. Presentations should last up to 3 minutes.

They will need to find out and talk about:

- the plants and animals that live in their chosen habitat;
- how these living things are suited to living there;
- where the animals find shelter;
- what the animals eat;
- one interesting fact (optional).

Please use the attached sheet to make notes. Extra sheets can be added if needed.

Homework notes should be returned by **Tuesday 5th May**, and children should be ready to present during that week.

Thank you for your support,

Mrs Sully
